

DIY Face Mask Kit Instructions

SUPPLIES:

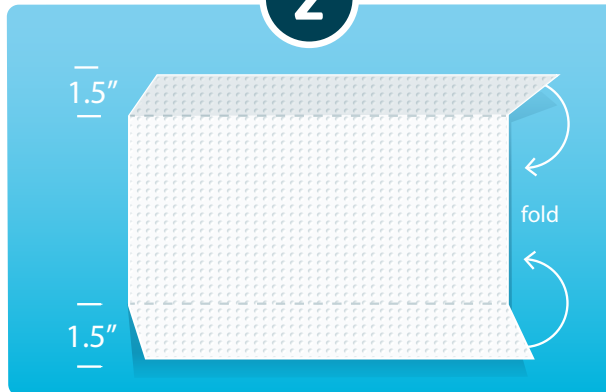

- Filti Face Mask Material
- Two 7"-9" long elastic straps
- Adhesive nose bridge
- Scissors
- Tape* * may also stitch or hot glue
- Stapler*

1

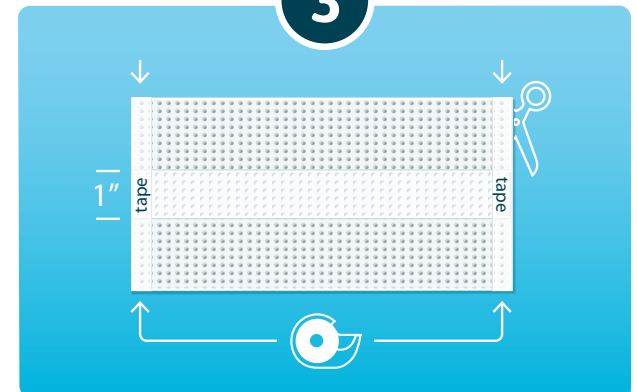

Place the outside of the Filti Face Mask Material down on a flat surface.

2

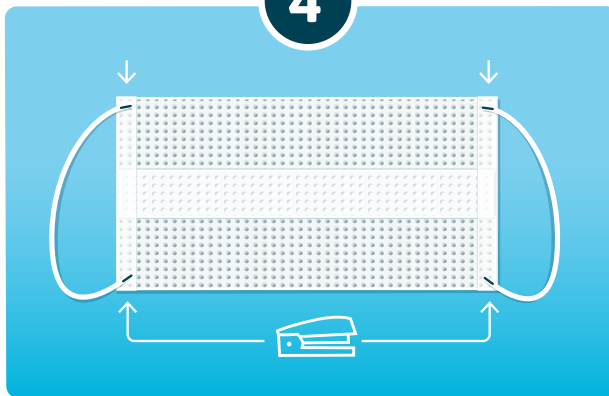

Make a fold 1.5" from the top and 1.5" from bottom. Leave a 1" gap between the folded flaps.

3

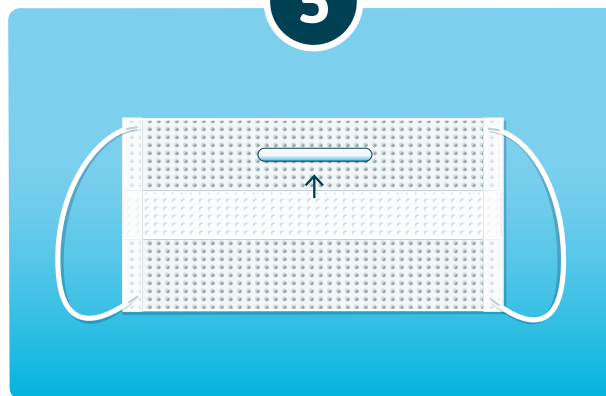

*Tape the folded flaps down along each edge. Trim away any excess tape.

4

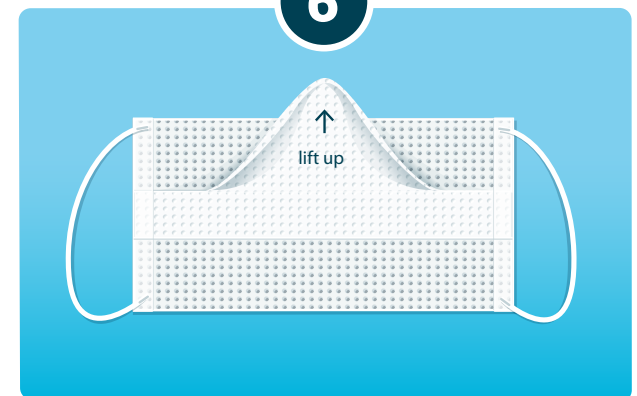

*Staple ends of elastic strips to the four corners of each side. Staples should face outwards. 8" long straps fit the average person.

5

Remove the nose bridge adhesive cover, center within the top folded area and press firmly onto the material.

6

Lift the center of the top flap up to create a nose covering. Place mask over mouth and nose. Adjust the nose bridge for a comfortable fit.
